PROFESSIONAL SUMMARY

Integrated B.Tech–MBA (Finance) candidate bridging quantitative finance and applied technology with concepts of financial modelling, M&A valuation, options theory, statistical modeling, algorithmic system development, agentic AI development, and data analytics. Finalist and winner across multiple national hackathons, finance and consulting case competitions, delivering DCF models, synergy analyses, derivatives valuation, and GTM roadmaps grounded in first-principles thinking. Built production-grade RAG pipelines and AI systems, translating complex datasets into boardroom-ready insights via Python, Power BI, and Tableau.

EDUCATION

- **Nirma Institute of Technology** CGPA: 8.4/10.0
Bachelor of Technology in Computer Science and Engineering 2023 - 2025
- **Nirma Institute of Management**
Masters in Business Administration 2025 - 2027 (expected)
- **Relevant Coursework**
Corporate Finance, Quantitative Techniques, Decision Science, Strategic Management, Business Research Methods
Digital Transformation

CERTIFICATES

- **Bloomberg Market Concepts (BMC)** 2025
Bloomberg for Education
 - Completed industry-recognised certification covering Economics, Currencies, Fixed Income, and Equities — directly applicable to financial analysis and deal evaluation in early-stage investing. [View Certificate ↗](#)

EXPERIENCE

- **ML Engineering Intern – Routedai Careers Pvt. Ltd.** May – July 2025
routedai.com *Ahmedabad, Gujarat*
 - Built and deployed a conversational AI bot with iHub Gujarat, automating support queries and improving response efficiency by 35%
 - Developed a Retrieval-Augmented Generation (RAG) model using Azure AI Foundry to enhance enterprise data retrieval accuracy
 - Led data acquisition pipelines and collaborated with PwC consultants, enabling insight-driven client discussions and business development
- **Technical Account Manager Intern – Emplay Inc.** July 2025 – Jan 2026
emplay.net *Remote / California, USA*
 - Built a GTM automation tool that reduced manual prospecting time by 40%, directly compressing the sales cycle and improving top-of-funnel conversion — analogous to CAC reduction levers in early-stage SaaS.
 - Engineered AI voice calling and conversational automation prototype for client demos, coordinating cross-functional teams from scoping to stakeholder sign-off.
 - Designed and deployed third-party API integration flows for clients, improving workflow automation and reducing manual intervention across key business processes.

ACHIEVEMENTS

- **IIM Ahmedabad Gathbandhan - Top 8 Nationwide** 2025
National Merger & Acquisition Case Competition
 - Assessed a Aviation-industry M&A deal through cash-flow modelling and synergy analysis, identifying 40–60 Cr in value creation
 - Delivered a sustainability-focused valuation with risk and sensitivity tests, projecting a 12–15% ROI
- **IND Money X In That Case - 1st Position Nationwide** 2025
National Finance Case Competition – Kirori Mal College
 - Developed a comprehensive 12-month MTF growth strategy addressing low retail adoption, complex onboarding, and Tier-2/3 investor gaps through deep market, product, and financial analysis
 - Built an AI-driven onboarding, risk-coaching, and micro-MTF model backed by financial forecasting, enabling a scalable path to a 600 Cr MTF loan book
- **CASEino X Grant Thornton Bharat - Semi-Finalist Nationwide** 2026
National Consulting Case Competition
 - Diagnosed 7 structural failure vectors in a declining consumer electronics firm and designed a 3-pillar turnaround strategy projected to restore EBITDA from 2% to 9% over 5 years.
 - Structured a 770 Cr capital plan via NBFC financing, TREDIS, and a 51:49 global tech JV, unlocking 450–480 Cr working capital without balance sheet dilution.
- **Southeastern Hedge Fund Competition - Geopolitical Elasticity Strategy** 2026
Georgia State University's J. Mack Robinson College of Business
 - Built commodity futures strategy analyzing geopolitical shocks across oil, gold, copper, wheat; proved statistically significant abnormal returns (+7.05% oil, +6.35% gold) during Iran–Israel escalation using event study methodology
 - Backtested \$10M portfolio using 1,878-day Bloomberg data achieving 67% cumulative return and 0.426 Sharpe ratio with elasticity-based allocation and GPR-triggered rebalancing

TECHNICAL & SOFT SKILLS

Technical Skills: Financial Modelling, M&A Valuation, Langchain, Langgraph, Crew AI, n8n, MCP Server, Agentic AI Development, RAG Pipelines, Data Analytics, Business Intelligence, Python, SQL, Power BI, Tableau, Excel, Derivatives Valuation, Options Theory, Statistical Modeling, Algorithmic Strategy Development

Soft Skills: First-Principles Thinking, Structured Problem Solving, Client Storytelling, Strategic Planning, Cross-functional Collaboration, Stakeholder Management
